

Evan Lahr

curriculum vitae

elahr@uw.edu
612.719.8048

Education

<i>In Prog.</i>	PhD, Oceanography University of Washington, Seattle, WA - Advisors: A.S. Ogston, C.A. Nittrouer
2021	MS, Oceanography University of Washington, Seattle, WA
2017	BA, Geology Carleton College

Technical Proficiencies

HYDRODYNAMIC	GEOSPATIAL	SEDIMENTOLOGICAL
• Marine acoustic sensing • Environmental timeseries • Boundary flow and shear • Wave-current interaction • Mooring and tripod design	• QGIS ArcGIS PyGIS • UAV photogrammetry • Acoustic surveys • Morphology metrics • Machine-learning interpolation	• Radiometric geochronology • ^{210}Pb, ^{137}Cs, ^{234}Th, ^{14}C • Organic carbon isotopes • Terrestrial biomarkers (Lignin) • Stratigraphic interpretation

Publications

Lahr, E.J., Ogston, A.S., Hill, J.C., Glover, H.E., Rosenberger, K.J., 2025. Submarine canyon sediment transport and accumulation during sea level highstand: Interactive seasonal regimes in the head of Astoria Canyon, WA. *Marine Geology*.

Lahr, E.J., Ogston, A.S., Keil, R.G., Neibauer, J., Al-Thani, J., 2025. Flood-Driven Turbidite Deposition in a Highstand-Detached Submarine Canyon. *Geophysical Research Letters*.

Glover, H.E., Ogston, A.S., Fricke, A.T., Nittrouer, C.A., Aung, C., Naing, T., **Lahr, E.J.**, 2023. Can Unleveled Agricultural Fields in Deltas Keep Pace With Sea-Level Rise? *Geophysical Research Letters*.

Glover, H.E., Ogston, A.S., Fricke, A.T., Nittrouer, C.A., Aung, C., Naing, T., **Lahr, E.J.**, 2023. Pathways for sediment transport and retention in a vegetated island of a tide-dominated delta: Connecting sediment dynamics to morphology in Meinmahla Island, Ayeyarwady Delta, Myanmar. *Sedimentology*.

Presentations

Lahr, E.J., Ogston, A.S., Hill, J.C., Moore, G., Rosenberger, K.J. (2025). "Distinguishing Earthquake from Flood Event Beds in a Seismically Active Submarine Canyon: Turbidites and Mass Transport Deposits Preserved Along the Upper Slope Oxygen Minimum Zone." INCISE Meeting 2025.

Grants Awarded - \$943k

875k	National Science Foundation , Contributor to Award no. 2147983
45k	Booth Fellowship , 2023 Field Operations
8k	Quaternary Research Center , Stephen C. Porter Award
6k	NASA , Space Grant Dissertation Award
5k	J. Smith Endowed Graduate , Award no. 707473
4k	Big Data Research Fund , High Performance Computer Assembly

Teaching Experience

2024	Study Abroad TA: New Zealand Field Geology , Carleton College
2021	TA: The Changing Arctic Ocean , University of Washington
2019	TA: Rivers and Beaches , University of Washington
2017	Geology Dept. Student Advisor , Carleton College
2015, '17	TA: Intro to Geology , Carleton College

Mentorship & Service

Abbey Moore	Undergraduate Tech , Sedimentology, grain size, x-radiography
Owen Trampe	Undergraduate Tech , Research Cruise Training, ^{210}Pb
Kate Redpath	Undergraduate Tech , Lignin, Organic Carbon Stable Isotopes
Mariah Josten	Undergraduate Tech , Radioisotopes ^{210}Pb , ^{137}Cs
Ari Neibauer	Highschool Mentee , Research project advisor
Lily Kamphaus	Highschool Mentee , Research project advisor

Field Data Collection

2018-present	UNOLS Cruises SKQ202404S: Mooring and Tripod Recovery and Gravity Coring SP2323: Mooring and Tripod resupply and Gravity Coring SKQ202305S: Mooring Deployment and Gravity Coring SR2023: Jumbo Piston Core Collection BH2022: Seismic Data Collection (Multichannel, Chirp) OC1905: OOI Endurance Array maintenance, tripod deployment RC0006: TA for educational cruise, OCEAN 230 RC0030: CHIRP/Sparker subbottom profiling, tripod recovery RC0031: Box coring TN0395: Box/kasten coring, OOI instrument recovery
2023-present	Coastal Washington , Puget Sound, Willapa Bay - Drone-based orthophotogrammetry, sensor installation, coring seismic, CTD profiling
2018, '19	Ayeyarwady Delta , Myanmar - investigation of hydro- and sediment dynamics of the Ayeyarwady River, its flood-plain, and associated mangrove forests.
2017, 24	Southern Alps , New Zealand - 7 months of field geology
2016	AK North Slope , Toolik, Alaska - Data logger installation measuring water uptake phenology in tundra shrub species - Satellite and field tracking of coeval moose and shrub expansion into tundra
2015	Pilbara Craton , NW Australia - Granite-greenstone deformation history from magnetic susceptibility
2015	Ravine alluvial fans , Mankato, Minnesota - Alluvial fan disturbance as a record of western settlement
